Subject: Clayton Municipal Water Utility

The Clayton Municipal Water Utility has asked me to respond to your letter regarding the analytical review of the 2001 annual report.

1. There is nothing included in account 233 in our printed copy of the annual report. There is, however, \$32,659 included in account 145. Within this total is \$6,369 due from the municipality for the net amount of expenses paid for by the general fund and reimbursements to the general fund; \$19,158 due from the sewer utility for past joint meter expense (this should have been recorded in account 143), and \$7,132 due from the fire department for the net of public fire protection and the property tax equivalent.

2. The cost of painting the water tower was paid from the operating and maintenance account was not amortized as originally planned.

3. Employee benefits and pensions were started in 2002. There were no benefits paid in 2001.

Please let me know if you have any further questions.

2001 Analytical Review DWCCA-1150-PJL

Dear Mr. Olson:

The Public Service Commission (Commission) staff has completed its analytical review of your utility's 2001 annual report. The primary purpose of the analytical review is to detect possible reporting or accounting related errors and also to identify significant fluctuations from prior years' data that are not sufficiently explained in the annual report. The

analytical review did identify the following issues:

1. As directed in the head notes of the Balance Sheet End-Of-Year Account Balances schedule on page F-18, please provide a more detailed description for the \$32,659 reported in Account 233 on page F-18 and follow this procedure in the future.
2. During our review we noted that while the utility has been authorized to amortize in Account 183 the cost of painting and repairing an elevated tank, no such thing was reported in Account 183. Please explain.
3. Please explain why there are no dollars reported in Account 686, Employees Pensions and Benefits on page W-5.

Responding to the questions posed from the analytical review does not preclude you from possibly receiving other inquiries from our office regarding your annual report in the future: for instance, during a rate case, construction authorization, or other Commission reviews.

We appreciate your cooperation in providing the above information. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is peter.leege@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

## WATER OPERATING SECTION FOOTNOTES

### Water Operation & Maintenance Expenses (Page W-05)

Account 650, Repairs of Water Plant, is up from the prior year because the village spent \$12,000 on water tower painting during 2001.

Account 680, Administrative and General Salaries, is up from the prior year because prior year's report did not include wages for the deputy clerk-treasurer. An audit adjustment was made after last year's PSC report had been filed. If the PSC report last year would have included that adjustment, this account would be comparable to the previous year.

Account 600, Salaries and Wages, is up from the prior year because the utility worker received a pay increase, and worked on more water related activities.
